

Discover
**JERSEY
ARTS**

Accessibility Guide

Dear Arts Patron:

The New Jersey Arts Access Task Force is proud to introduce *Discover Jersey Arts: Accessibility Guide*. This handbook is designed to assist patrons with disabilities and their families in determining the physical and programmatic accessibility of New Jersey's cultural institutions.

A "snapshot" of each organization's accessibility is provided via the Accessibility Symbols, which were determined from responses to a comprehensive accessibility survey. More information on New Jersey's arts organizations can be found in *Discover Jersey Arts: Resource Guide*, a companion guide distributed by the New Jersey State Council on the Arts.

Please note: The information provided in this directory does not address all accessibility issues and is for informational purposes only. Should you have any questions regarding the enclosed accessibility information or if there is an organization that you would like to attend which is not listed, please contact the organization directly.

We hope you find this first edition of the *Accessibility Guide* valuable and that it enhances your experience at the many wonderful arts organizations that proudly call New Jersey home. We welcome any feedback that you might have.

Enjoy!

A handwritten signature in black ink that reads "Wendy Liscow". The signature is written in a cursive, flowing style.

Wendy Liscow

NJ Arts Access Task Force Coordinator

UNDERSTANDING THE GUIDE'S USE OF THE ACCESSIBILITY SYMBOLS:

When an organization does not have a particular symbol, it does not necessarily mean that a person with a disability cannot be accommodated. It means that they do not offer **all** of the following basic minimum accessible features.

Important: We encourage you to contact organizations for further details and information regarding accommodation of specific needs.

This symbol means the organization complies with all the following architectural features:

- Accessible private parking or valet service (Parking situations vary tremendously. At minimum, an organization has to have the required ratio of disabled-designated parking spaces in a privately controlled lot.);
- An accessible route from the parking area to the accessible building entrance;
- An accessible entrance to the primary function (performance, exhibit space, etc.);
- An accessible bathroom; and
- Provisions for wheelchair seating.

The Task Force has created this adjusted symbol for organizations that do not strictly comply with the above minimum standards, but have made their primary programs and services accessible to people with mobility restrictions.

- In some cases architectural limitations have been addressed through special accommodations, such as videotape of an inaccessible second floor art exhibit.
- In other cases, the organization is completely wheelchair accessible, but it could not comply with the parking requirement because parking is not provided on site (i.e. a municipal owned lot, or street parking) and the organization does not control parking usage.

This symbol means the organization has an Assistive Listening System (either Infrared, FM, or Induction Loop) in its assembly area and/or provides a system for guided tours.

This symbol means the organization offers sign-interpretation for all or select performances, lectures, and/or guided tours. Please note: in some cases, sign interpretation will only be provided if requested within a designated period of time prior to the event.

This symbol means the organization offers open or closed captioning for all or select performances, videos/films, lectures, tours or workshops. Please note: in some cases, captioning will only be provided if requested within a designated period of time prior to the event.

This symbol means the organization offers audio description for all or select performances and/or guided tours. Please note: in some cases, audio description will only be provided if requested within a designated period of time prior to the event.

This symbol means the organization offers Braille programs, promotional materials and/or Braille signage for displays and exhibits. Please note: in some cases, Braille materials will only be provided if requested within a designated period of time prior to the event.

This symbol means the organization offers Large Print programs and/or other materials. Please note: in some cases, Large Print materials will only be provided if requested within a designated period of time prior to the event.

This symbol was created to notate those organizations which present their work in multiple venues. Many of these touring companies require their performance venues to be accessible. As it is not possible for the Task Force to collect complete information on all these spaces, contacting the organization for further information is recommended.
